

Hello to our fellow supporters & prospective participants,

In these challenging economic times there are inevitably more people falling on hard times & finding themselves in need of some type of assistance. At the same time however, the wellsprings for many sources of funding often dry up leaving charitable organizations faced with substantial cutbacks just when they are needed most. I believe innovative fundraising solutions are needed to help these charitable organizations fund the growing need for their services.

To that end I am organizing Roseburg Homes Realty's first "Charity House." The Roseburg Homes Realty Charity House will be built by contractors & organizations willing to carry out their trade or provide construction materials at a discount or via donation. The result of this effort will be an inordinately small basis in the home which will of course lead to substantial profit.....All of which will go to "The Mercy Foundation!"

The Mercy Foundation is a not-for-profit corporation, Mercy Foundation strives to identify and fill the unmet health care needs of Douglas County children. The goodness of the Mercy Foundation is too vast to discuss in this letter, please visit them at www.mercygiving.org for details about their organization's mission & programs. I am proud to have this local charity be the beneficiary our first Roseburg Homes Realty Charity House.

We each have a unique opportunity to participate in this special endeavor. If you are interested in contributing to the Charity Home please feel free to call or email at any time. Thank you for your consideration.

With good regards,

Ben Tatone
